

The engine whirs and the blades rotate. My helicopter lifts off, my heart beats faster. I can see all the way to the horizon and I am filled with joy.

This feeling of elation floods over me every time I fly, ever since I was a young pilot in the Israel Air Force.

Flying is exciting and the views are magnificent. My photographs are a natural way for me to share these experiences with you.

For decades, I have been flying through the skies and bringing you my pictures. I have seen both the beauty of our country and its tremendous development; I have told its story through the cities, villages, fields, and landscapes as they change with the seasons and over the years.

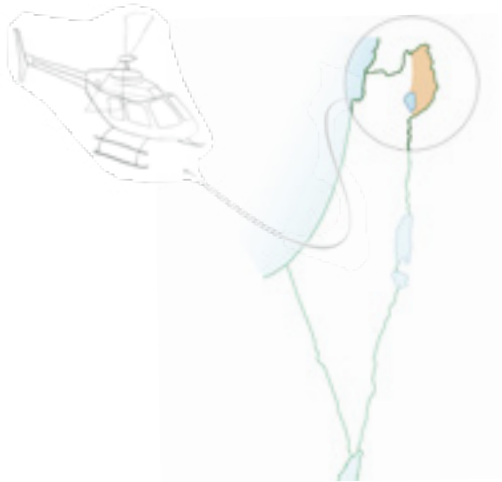

“Small Book - Great Country” is the essence of my long flights in the skies of Israel, which began in the mid-1970’s. Through my pictures, flashes of light and beauty, I invite you to join me in these exhilarating experiences in my beloved land.
